### UIEN: Wereldproduct

Wereldhandel groeit met 350.000 ton per jaar

De productie en internationale handel van uien groeit wereldwijd gezien nog steeds. De FAO schat dat er jaarlijks meer dan 80 miljoen ton uien op commerciële basis wordt geproduceerd. Uien is een echt "wereldproduct". Er zullen weinig landen zijn waar geen uien wordt geteeld dan wel gegeten. Het is dan ook niet vreemd dat in bevolkingsrijke landen veel uien wordt verbouwd. China is veruit koploper als producent met een geschatte (handels) productie van 25 miljoen ton. India is de tweede op de lijst met 16 miljoen ton. Bij elkaar zijn deze beide landen dus goed voor bijna de helft. Qua bevolking zijn China en India goed voor 37% van het wereldtotaal van ruim 7 miljard. Op afstand van de twee grootmachten zijn de Verenigde Staten, Iran, Egypte, Turkije, Rusland en Pakistan de andere belangrijke uien producenten. Net binnen de top-10 vinden we Nederland en Brazilië met beide een productie van 1,5 miljoen ton. Relatief gezien zijn India en Egypte de grootste groeiers met beide een meer dan verdrievoudiging van de productie sinds 2000.

Hoeveel uien er precies wereldwijd in het internationale handelsverkeer komt is niet bekend. Inclusief (1<sup>e</sup> jaars)plantuitjes en sjalotten gaat het om ruim 7 miljoen ton met een waarde van ruim 3 miljard dollar. Nog elk jaar groeit de internationale handel, sinds 2000 is de wereldhandel meer dan verdubbeld. Gemiddeld sinds de eeuwwisseling is er wereldhandel met bijna 350.000 ton per jaar gegroeid (zie grafiek).

Nederland is 's werelds nummer één als uienexporteur op afstand gevolgd door India en ver daar weer achter China en dan weer op afstand daarvan Egypte, Mexico, de Verenigde Staten, Spanje en Argentinië (zie grafiek).

Op wereldschaal gezien zijn Rusland en Maleisië de belangrijkste importeurs van uien met beide een kleine half miljoen ton. Dan volgen de Verenigde Staten, Japan, het Verenigd Koninkrijk en Saoedi-Arabië met elk tussen de 300 en 400.000 ton. De top-10 van importlanden wordt gecompleteerd door Duitsland, Indonesië, Nederland en Brazilië (zie grafiek).

Nederland is 's werelds grootste exporteur. Inclusief plantuitjes en sjalotten gaat het om een hoeveelheid van 1,6 miljoen ton, waarvan 1,38 miljoen ton uien, 240.000 ton plantuitjes en 22.000 ton sjalotten (CBS cijfers 2011).

Naast exporteur is Nederland zoals aangestipt ook een grote importeur. In 2011 ging het om 220.000 ton, waarvan 187.000 ton uien, 30.000 ton plantuitjes en 3.900 ton sjalotten (ook CBS cijfers 2011). Het KCB registreerde in 2011 een export van Nederlands product van 870.000 ton en in 2012 936.000 ton. Het KCB-cijfer wordt meestal gehanteerd als het Nederlandse exportcijfer van zaaiuien incl. 2<sup>de</sup> jaarsplantuien. Bij een internationale vergelijking van de uienwereld moet er gebruik gemaakt worden van diverse bronnen zoals de nationale statistieken, Eurostat en Comtrade. Verschillende bronnen geven zo is bekend verschillende cijfers.

De Nederlandse export (KCB cijfer) is vorig jaar gegroeid naar 936.000 ton. De export naar de belangrijkste afnemers Senegal liep met 5% terug naar 127.500 ton. De export naar de tweede op de lijst Engeland groeide juist met 5% naar 114.000 ton. Een forse groei was ook te zien bij een aantal andere Afrikaanse landen. Veel minder Nederlandse uien ging er naar Duitsland en vooral naar Rusland.

T/m 2011 was Nederland de belangrijkste leverancier van Rusland. China, Egypte en Turkije zijn daar in het Nederlandse gat gesprongen. In Duitsland is het gat wat Nederland vorig jaar gelaten heeft maar voor een klein deel opgevuld.

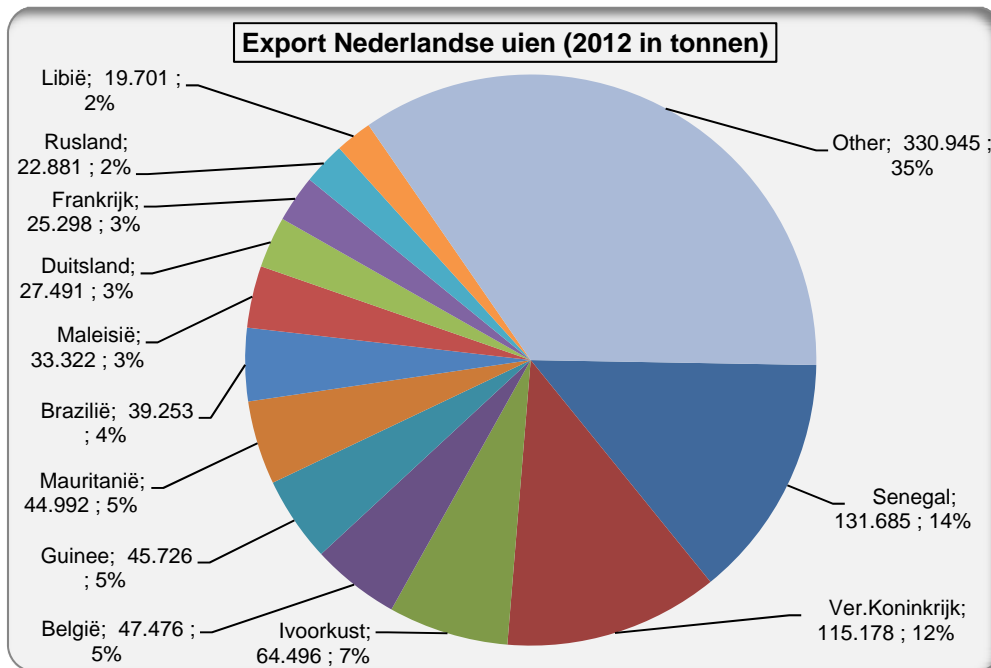

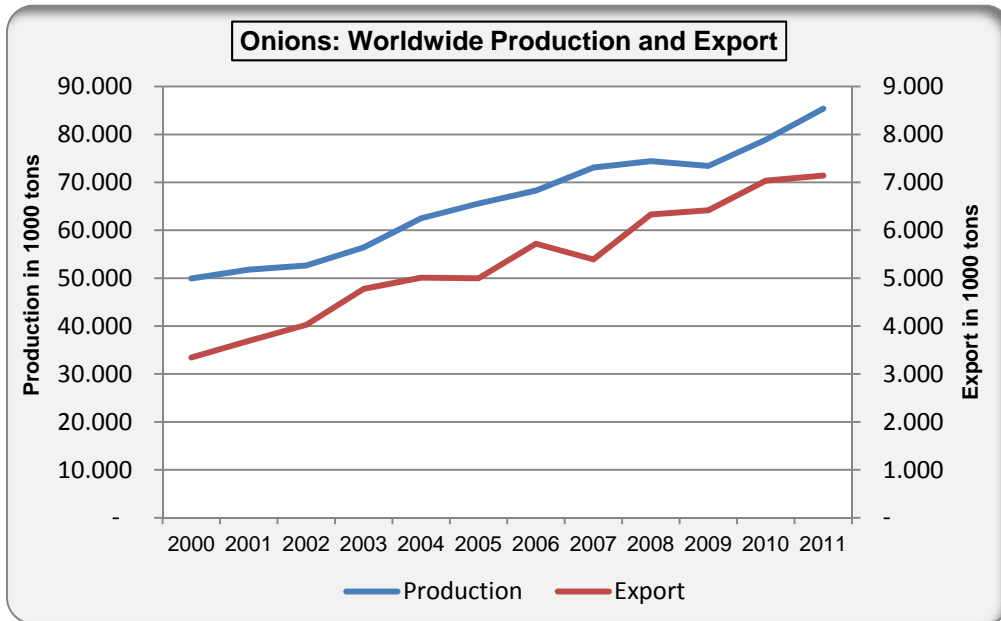

Het zwaartepunt van de handel in Nederlandse uien ligt dus op Afrika. Ook EU-landen zijn belangrijk. Van alle EU-landen is Nederland veruit de belangrijkste leverancier. Inclusief re-export was het Nederlandse aandeel in de import van alle 27 EU-landen in 2011 een derde.

## Marketsurvey onions

De Verenigde Staten halen hun uien naast de eigen productie vooral uit buurland Mexico en in mindere mate uit Peru en Canada. Aziatische landen handelen vooral onderling. En landen in het Midden Oosten halen hun uien vooral uit India en Pakistan. Het enige land dat naast Nederland ook in veel andere werelddelen met z'n product op de markt is, is Nieuw Zeeland maar het gaat om betrekkelijk kleine hoeveelheden en er is ook sprake van een gestage achteruitgang van de export van uit Nieuw Zeeland: 2000 nog 230.000 ton en in 2011 nog maar 140.000 ton.
