## IMPORT VERSE GROENTEN EN FRUIT IN RUSLAND:

### VLAK VOOR DE BOYCOT VEEL UIT NEDERLAND

#### Minder kilo's maar meer dollars import uit "boycotlanden"

De Russische import van verse groenten en fruit is in de eerste zeven maanden van dit jaar een fractie kleiner geweest dan in dezelfde periode van 2013. De import van vers fruit bleef bijna 10% achter maar daar stond een plus van 15% tegenover bij de import van verse groenten. Dit blijkt uit voorlopige cijfers van de Russische douane (stand 22 augustus 2014).

Het aandeel van de import van landen die vanaf begin augustus onder de Russische boycot maatregel vallen is rond de 30%.

De waarde van de import was in dollars in de eerste zeven maanden dit jaar 3% lager dan in dezelfde periode van 2013.

Het importpakket uit de door de boycot getroffen landen was in kilo's stabiel terwijl de waarde van het pakket vanuit andere landen 4% lager was. Dit alles weer op basis van voorlopige cijfers van de Russische douane (stand 22 augustus 2014).

Share boycott countries	28%	32%	29%	30%	31%	

#### Piek totale import in November en december

De piek van de Russische import van verse groenten en fruit ligt gewoonlijk in de maanden november en december en een kleinere "piek" van maart t/m mei. De import is het kleinst in de maanden augustus en september.

De import vanuit landen waarvoor de boycot geldt laat een veel vlakker verloop zien zonder een piek in november-december maar wel een "vlakke" piek in de maanden februari t/m mei.

#### Grote groei import uit Nederland, Marokko en Wit-Rusland

De belangrijke leveranciers die het in de eerste zeven maanden van dit jaar goed deden waren: Turkije +13%, China +5%, Spanje +5%, Marokko + 48%, Israel +4% Nederland +51% en Wit Rusland +51%.

De belangrijke leveranciers met een daling van de import waren: Ecuador -7% (alleen bananen), Polen -24%, Egypte -2%, Zuid Afrika -26%, Moldavië -37% en Argentinië -33%.

#### Veel meer uien en peren; oa vanuit Nederland

Hetzelfde maar dan wat de producten betreft; meer werd er in de eerste zeven maanden ingevoerd van : tomaten +9%, soft citrus +2%, peren +17%, peen +1%, uien +51%, perziken +4%, komkommers +10%.

Producten waarvan de Russische vraag in de maanden januari-juli van dit jaar kleiner was dan in dezelfde maanden van 2013 waren: appels -15%, bananen -7%, sinaasappelen -10% en druiven -19%.

De sterke groei van de import vanuit Nederland komt vooral door een grote Russische vraag naar Nederlandse uien, peren en sluitkool. Daarnaast liep ook de import ook goed van Nederlandse tomaten en paprika's.
