WIT RUSLAND: Grote importeur van verse groenten en fruit

Volgend jaar valt voor EU landen markt van 400.000 ton weg

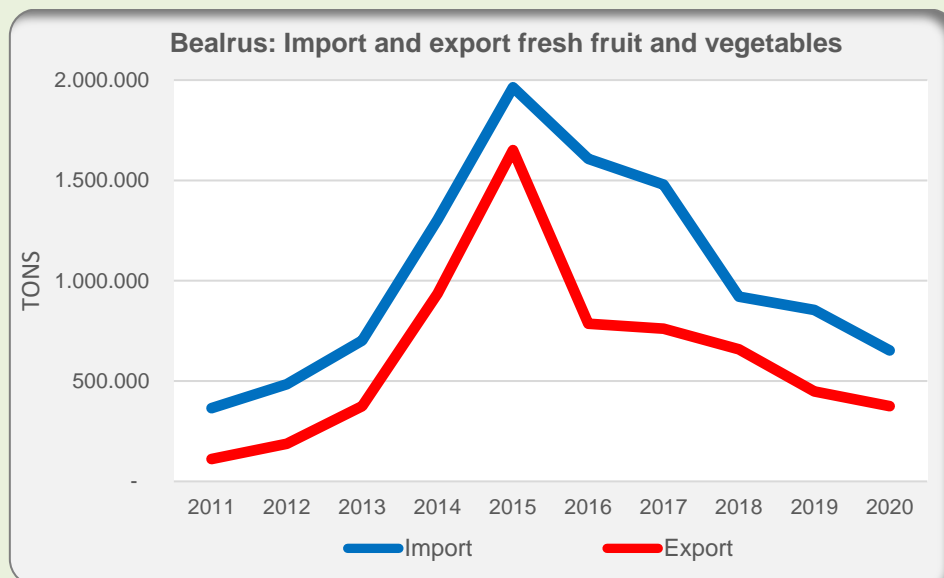

Wit Rusland gaat vanaf 1 januari 2022 de import van oa. verse groenten en fruit uit onder meer de EU-landen verbieden. Volgens cijfers van Eurostat werd er vorig jaar meer dan 400.000 ton verse groenten en fruit uit/via EU landen naar Wit Rusland uitgevoerd. Uitgaande van de cijfers over de eerste 9 maanden zal dat dit jaar nog wat meer zijn. Overigens was dat een aantal jaren terug meer dan een miljoen ton. Dat was vlak na het instellen van de Russische importboycot.

Nog steeds doorvoer naar Rusland

De Wit Russische import van verse groenten en fruit bereikte in 2015 een piek met 2 miljoen ton.. Na het instellen van de importboycot door Rusland medio 2014 nam de import in Wit Rusland een grote vlucht. Daarna nam die geleidelijk af naar 650.000 ton in het afgelopen jaar.

In bepaalde jaren werd er volgens de Wit Russische douane verse groenten en fruit ingevoerd uit allerlei vaak ook exotische landen tot peren uit Jemen aan toe! Aan die "handel" is nu goddeels een einde gekomen.

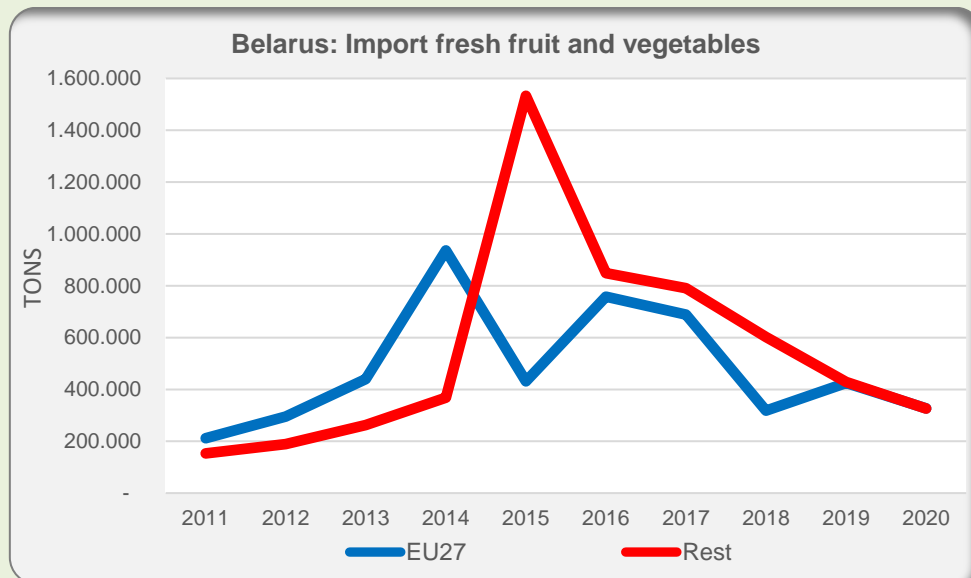

Het belang van Wit Rusland als doorvoerland is goed te zien aan het parallelle verloop van import en export curve. De export is vrijwel uitsluitend gericht op Rusland. Appelen en peren vormen de hoofdmoot.

Polen de belangrijkste leverancier

Vorig jaar kwam volgens de Wit Russische douane de helft van de import van verse groenten uit EU landen. In 2019 was dat ook zo.

Tegenwoordig is Polen de belangrijkste leverancier van verse groenten en fruit aan Wit Rusland. Volgens de Wit Russische douane ging het vorig jaar om 177.000 ton. Hierbij ging het om 120.000 ton peren en 35.000 ton peren. Hardfruit was derhalve goed voor 80% van het totaal.

Vooral hardfruit

Volgens Eurostat (re)exporteerde Polen vorig jaar 260.000 ton verse groenten en fruit naar Wit Rusland. Het Eurostat cijfer is hoger omdat er sprake is van re-export uit andere, vnl. EU landen. Het Eurostat cijfer voor export van appels uit Polen naar Wit Rusland komt wel overeen met het Wit Russische importcijfer maar volgens Eurostat ging er uit/via Polen bijna 90.000 ton peren naar Wit Rusland. Bij peren gaat het ook om product uit België en Nederland dat via Polen verder oostwaarts gaat.

Verder re-exporteert Polen ook onder meer Spaans product. Te zien aan de (re) export cijfers van producten als aardbeien, perziken, kaki en citrus.

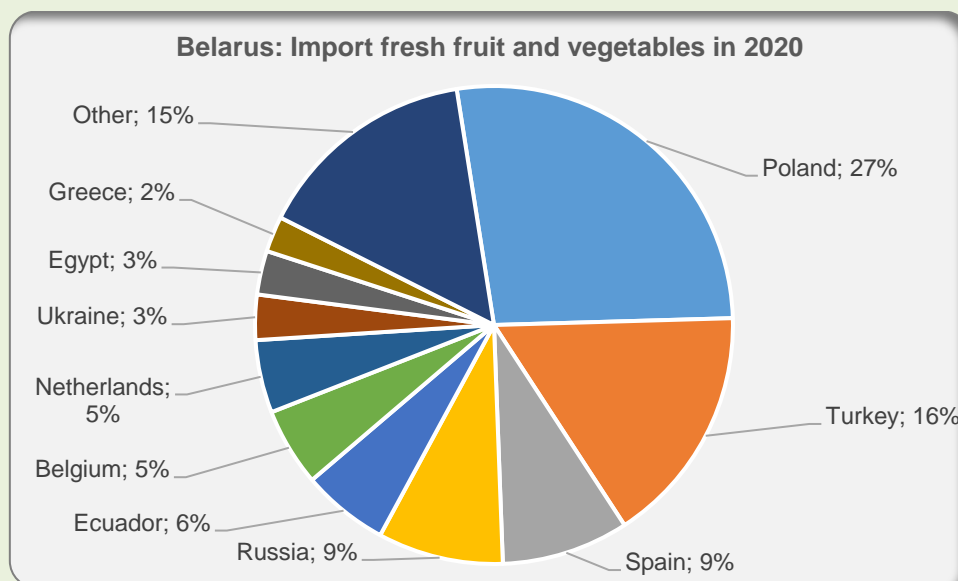

Appelen vooral uit Polen, peren ook uit België en Nederland

Ook bij de totale EU export naar Wit Rusland draait het om hardfruit. Naast Polen gaan er weinig appels uit andere EU landen naar Wit Rusland. Bij peren is zoals gezegd Polen minder dominant. Eurostat geeft in principe geen cijfers naar land van oorsprong maar naar land van herkomst (laatste "haven"). Dit blijkt uit de cijfers van de Wit Russische douane. Die houdt het voor 2020 op een import van 32.000 ton Belgische en 13.000 ton peren uit Nederland. Voor import uit/via Polen geeft de Wit Russische import statistiek een cijfer voor 2020 van bijna 35.000 ton.

Bijna 40% import is hardfruit

Van de totale import van verse groenten en fruit in 2020, groot 650.000 ton, bestond 130.000 ton uit appels en 110.000 ton uit peren. Samen goed voor 35 a 40%. Dan volgt bananen met 75.000 ton, tonmaten (45.000), Mandarijnen (36.000) en perziken/nectarines (28.000).

Ook veel uit Turkije

Belangrijkste niet-EU leverancier is Turkije. In 2020 ging het om 106.000 ton. Daarvoor was het meer met een piek in 2017. Toen werd er 215.000 ton uit Turkije ingevoerd. Peren is het belangrijkste product gevolgd door tomaten en perziken/nectarines.

Spanje is volgens Wit Russische douane de nummer drie met vorig jaar een import van 56.000 ton.

Opvallend is ook de import uit Rusland, vorig jaar 55.000 ton. Bananen en watermeloenen zijn de belangrijkste producten die via Rusland in Wit Rusland terecht kwamen.

Dan volgen Ecuador (38.000 ton), België (35.000), Nederland (32.000) en Oekraïne (20.000 ton).
