

# FACTSHEET GERMANY Import fresh fruit and vegetables August 2022

Fruit & Vegetable Facts; Jan Kees Boon; +31654687684; [fruitvegfacts@gmail.com](mailto:fruitvegfacts@gmail.com)

## Duitse import verse groenten en fruit in augustus niet zo klein als daarvoor

### Import uit Nederland in augustus “maar” 4% kleiner

De Duitse import van verse groenten en fruit is in augustus “maar” 2% kleiner geweest dan in augustus vorig jaar. Alle voorgaande maanden was de min veel groter. In totaal is er in de eerste acht maanden van dit jaar was de min ruim 10%.

De importdaling van Nederlands product was van januari t/m augustus met een min van 17% wel erg groot te noemen. In augustus was de daling 4%. De import van Spaans product viel van januari t/m augustus met een min van “maar” 10% daarbij vergeleken nog mee (augustus evenals Nederland -4%). Italië deed het nog “beter” met een min van 6%. Die relatief kleine daling van Italiaans product kwam vooral door de veel (+43%) grotere import uit Italië in augustus.

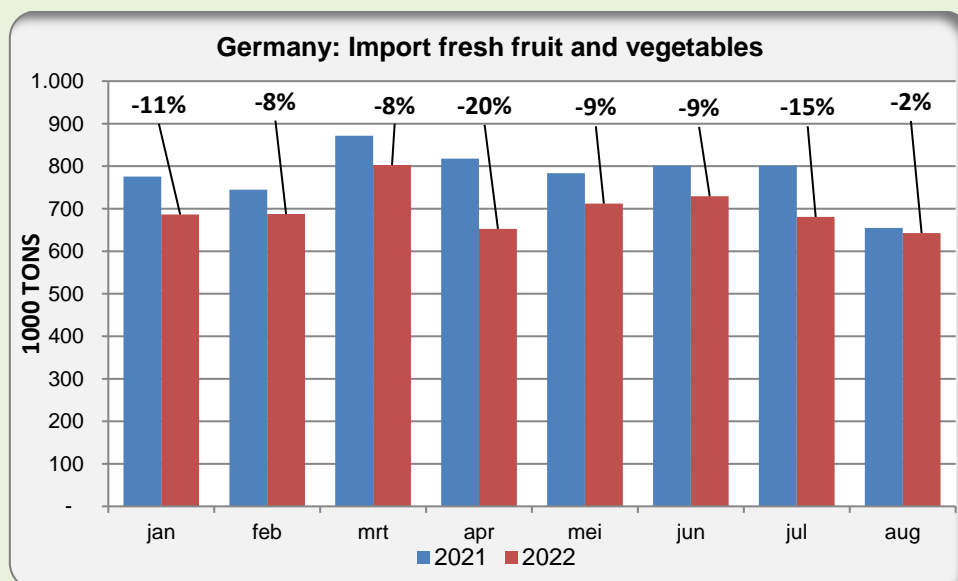

De grote leveranciers uit Latijns Amerika, Costa Rica en Ecuador leverden in de eerste 8 maanden resp. 5 en 23% minder aan Duitsland.

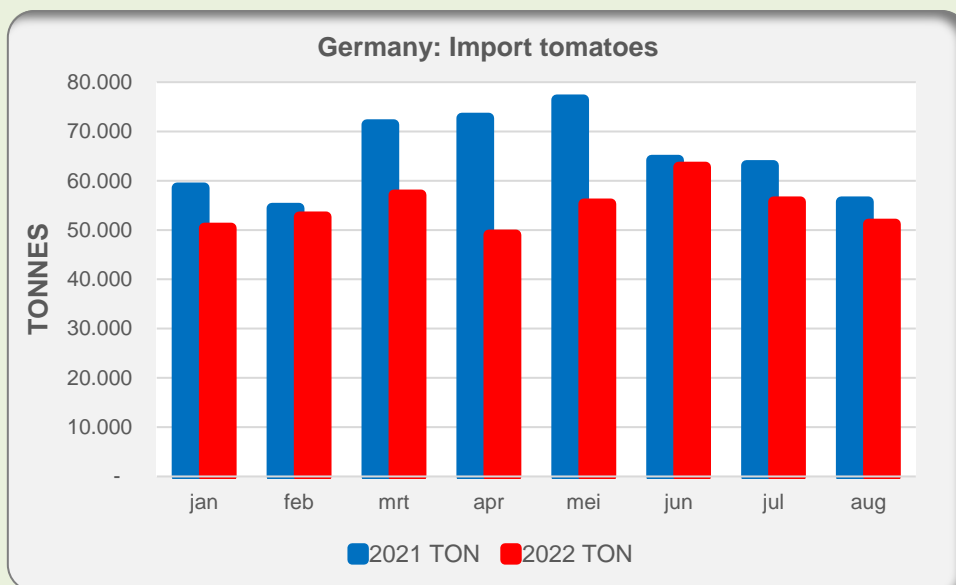

Marokko was van de belangrijkste leveranciers een uitzondering met een plus in de eerste 8 maanden van 16%. Ook verse groenten en fruit uit Zuid Afrika en Peru (veelal via Nederland) was in de eerste 8 maanden van dit jaar meer te vinden op de Duitse markt dan vorig jaar.

De Duitse import van Belgische verse groente en fruit liet in de eerste 8 maanden van dit jaar een daling zien van 9%, nl. van 128.000 naar 117.000 ton. In augustus kon er zelfs een kleine plus genoteerd worden

### Van alle belangrijke producten minder ingevoerd

Van alle belangrijke producten werd in de periode januari-augustus dit jaar veel minder in Duitsland ingevoerd dan vorig jaar in dezelfde periode. De krimp viel dan bij bananen met 9% nog mee

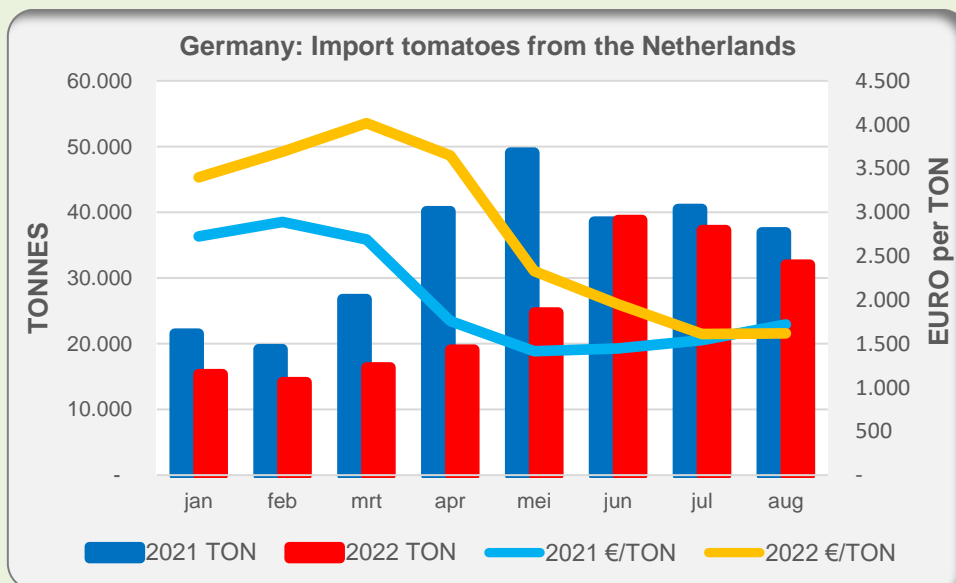

vergeleken met de minnen van 16 en 15% van resp. tomaten en komkommers. Ook van sinaasappelen en appels was de min groter dan 10%. Van de wat groter producten liet alleen de import van druiven een plus zien. Plussen bij de minder belangrijke producten waren er te zien bij: peren, meloenen avocado's

Import tomaten in eerste 8 maanden 16% kleiner; uit Nederland een kwart minder

Na bananen is tomaten het 2<sup>de</sup> Duitse import product bij verse groenten en fruit. In heel 2021 importeerde Duitsland 750.000 ton tomaten waarvan 380.000 ton uit Nederland en 165.000 ton uit Spanje. Voor Nederland is tomaten (excl. re-export) veruit het belangrijkste exportproduct naar Duitsland.

Volgens het Duitse CBS ofwel het Statistisches Bundesamt (SBA) importeerde Duitsland in de periode januari-augustus 435.000 ton 16% of 83.000 ton minder tomaten dan in dezelfde periode van 2021. Uit Nederland importeerde Duitsland van januari t/m augustus dit jaar minder dan 200.000 ton tegen 273.000 ton in dezelfde periode van het vorige jaar. Dat is maar liefst ruim een kwart of 75.000 ton minder. Het SBA registreert zo goed mogelijk het land van oorsprong.

**Germany: Import tomatoes from the Netherlands**

		2021	2022	Mutatie
Januari-juni	TON	195.277	128.515	-34%
	1000 EURO	381.838	373.119	-2%
	EURO per TON	1.955	2.903	48%
Juli-augustus	TON	77.435	69.283	-11%
	1000 EURO	125.933	111.825	-11%
	EURO per TON	1.626	1.614	-1%

Ook een kwart minder Belgische tomaten

Ook de import van Belgische tomaten kromp dit jaar fors, nl. met 28% van 46.000 naar 33.000 ton. Spanje als tweede tomaten leverancier van Duitsland vulde het gat niet op. De import uit Spanje was met 111.000 ton precies even groot als vorig jaar. Marokko heeft wel kunnen profiteren. De Duitse import van Marokkaanse tomaten groeide in de eerste 8 maanden van dit jaar fors, nl. met 44% van 32.000 naar 46.000 ton.

De (statistische) importprijs van Nederlandse tomaten lag vooral in het eerste halfjaar veel (48%) hoger dan een jaar eerder. In juli en augustus lag de gemiddelde importprijs van tomaten uit Nederland weer op hetzelfde niveau als vorig jaar.
