KLEINE EUROPESE UIENOOGST 2018 GECOMPENSEERD DOOR HANDEL MET LANDEN BUITEN DE EU

0,3 miljoen minder er uit en 0,4 miljoen meer er in

In het afgelopen seizoen 2018/19 is de uienexport van EU landen naar landen buiten de Gemeenschap zo'n 300.000 ton kleiner geweest dan in de voorgaande drie seizoenen. De import uit niet EU landen is daarentegen 400.000 ton groter geweest. Er was in het afgelopen seizoen dus 700.000 ton uien extra beschikbaar voor de EU markt dan in voorgaande seizoenen..

Die hoeveelheid moest het gat opvullen dat veroorzaakt was door de kleine EU oogst door de droogte in grote delen van de EU. Alleen al in Nederland was de uienoogst in het afgelopen seizoen met 810.000 ton rond de 600.000 ton kleiner dan gemiddeld in de voorgaande drie seizoenen.

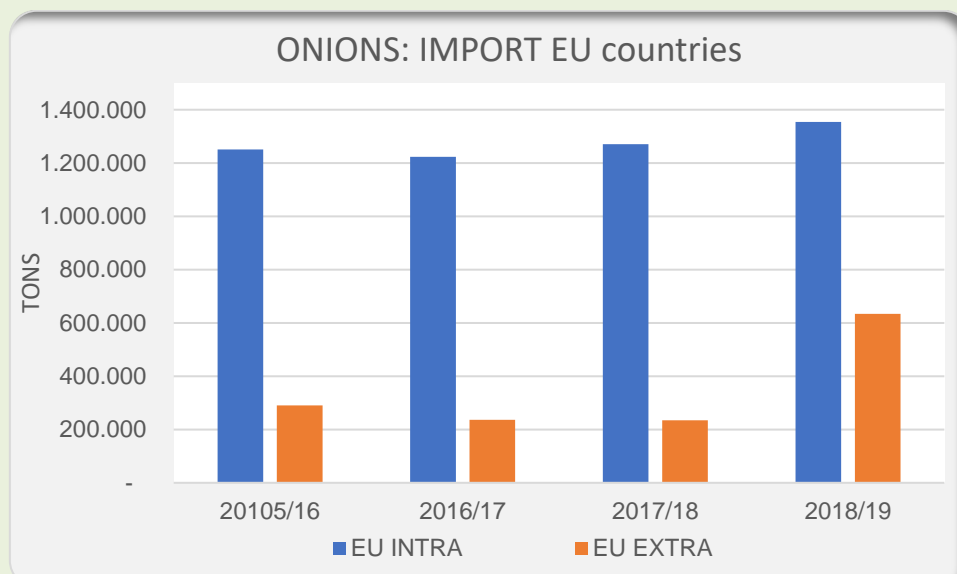

Nederland:

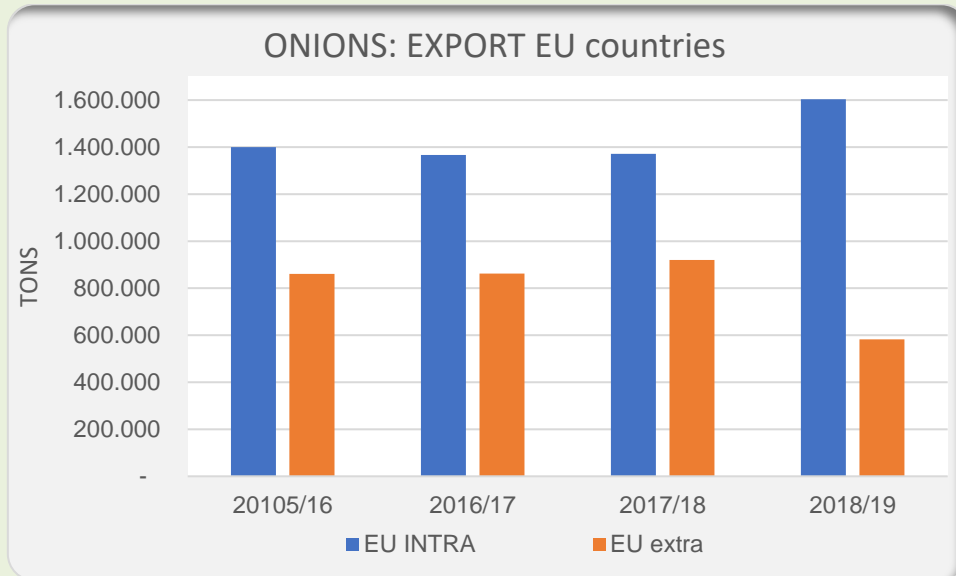

Op basis van Eurostat(CBS) cijfers was de export van uien excl. (1^{ste} jaars) plantuien en sjalotten van Nederland in 2018/19 ruim 1,3 miljoen groot. Dat was "maar" 100.000 ton minder dan gemiddeld in de voorgaande drie seizoenen. Dat was de som van 275.000 ton minder export naar landen buiten de EU en 160.000 ton meer export naar EU landen. Het aandeel van landen buiten de EU kwam in 2018/19 uit op nog geen 40% tegen 55% gemiddeld in de drie voorgaande seizoenen.

Alleen Nederland exporteert grotere hoeveelheden naar landen buiten EU

Buiten Nederland wordt er door andere EU landen weinig uien naar landen buiten de EU ge-exporteerd. In het afgelopen seizoen exporteerden de andere EU landen ruim 60.000 ton naar landen buiten de EU waarvan 35.000 ton uit Spanje. EU landen onderling verhandelden in het afgelopen seizoen ca. 1,5 miljoen ton waarvan ca. de helft door Nederland.

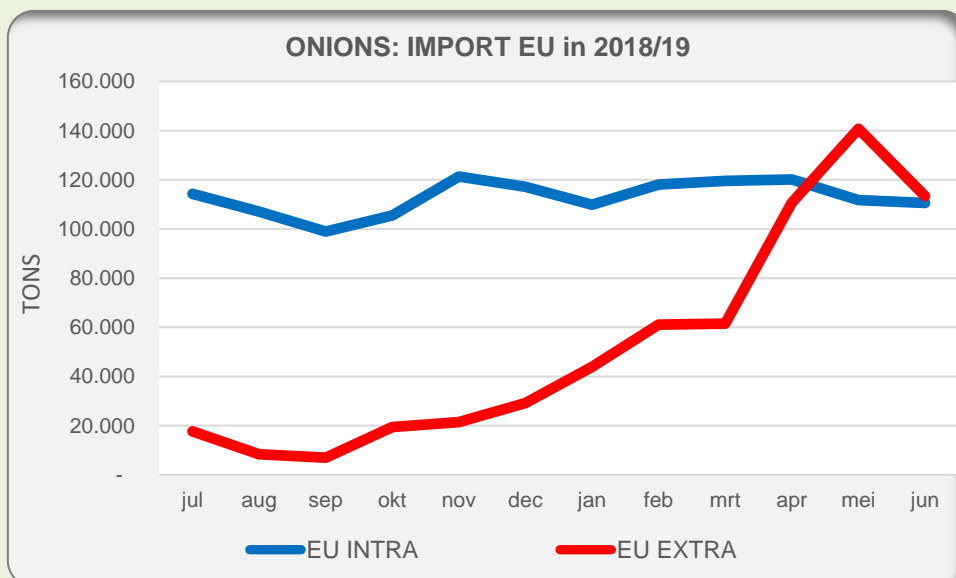

Naast de enorme hoeveelheid uien die Nederland exporteert is ook de import van belang. In het afgelopen seizoen importeerde Nederland 365.000 ton. De afgelopen drie seizoenen is dat fors gegroeid, nl. van 170.000 ton in 2015/16 via 210.000 ton in 2016/17 naar 240.000 ton in 2017/18.

Import Nederland: Veel Egyptische uien maar ook veel meer uit diverse andere landen

Meer dan de helft van de Nederlandse uienimport kwam in het afgelopen seizoen uit(via) EU landen, nl. 200.000 ton tegen 165.000 ton uit niet EU landen. Egypte was in 2018/19 de belangrijkste leverancier met 85.000 ton. De drie seizoenen ervoor ging steeds om ca. 35.000 ton. Ook uit diverse andere landen importeerde Nederland (veel) meer uien. Het ging hierbij oa. om Spanje, Nieuw Zeeland, België, China, Frankrijk, de Verenigde Staten, het Verenigd Koninkrijk, Marokko, Oostenrijk, India, Zuid Afrika en Australië.

In andere EU landen ook meer import uit Kazachstan, Peru, Turkije, Oezbekistan en Chili

In de hele EU werd er in het afgelopen seizoen 215.000 ton uit Egypte ingevoerd. Naast Nederland gingen er ook belangrijke hoeveelheden Egyptisch product naar het Verenigd Koninkrijk (50.000 ton) en Italië (25.000 ton). Andere landen van buiten de EU waaruit uien naar de Gemeenschap kwam waren Nieuw Zeeland (100.000 ton), India (43.000 ton), Kazachstan (42.000), Peru (34.000), China (30.000), Turkije (24.000), Oezbekistan (21.500) en Chili (20.000 ton).

Het zwaartepunt van de import uit niet EU landen viel in de tweede helft van het seizoen met name in de maanden april, mei en juni.

Volgens het KCB is er in het afgelopen seizoen 2018/19 ruim 23.000 ton buitenlandse uien geëxporteerd. Verder registreerde het KCB een export van Nederlandse uien van 823.000 ton. Samen met de re-export komt dat neer op 845.000 ton.

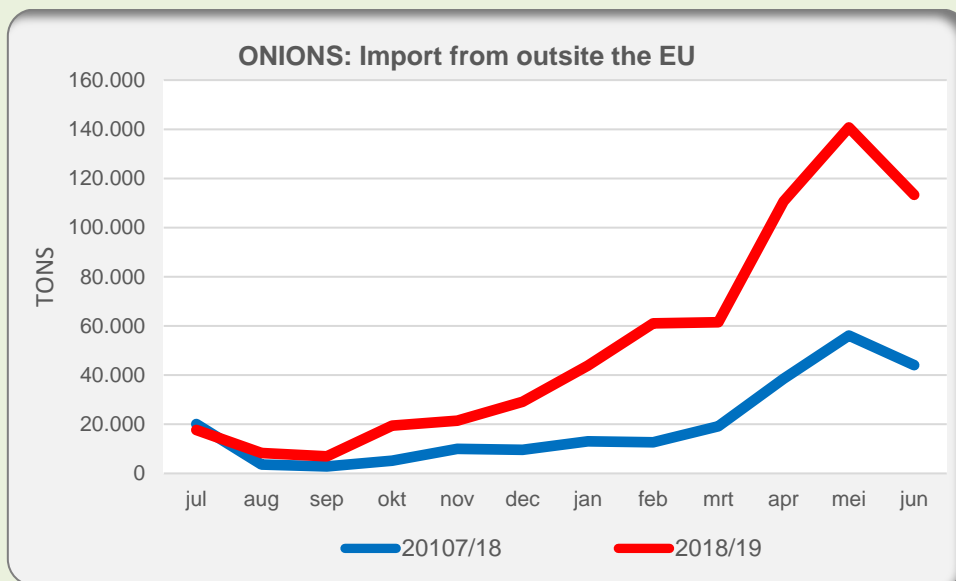

Volgens CBS en Eurostat is dat veel meer geweest, nl. 1,3 miljoen ton. Ook voorgaande seizoen was er een groot gat tussen KCB en CBS/Eurostat. Hert verschil is geheel toe te schrijven aan de export naar EU landen.

CBS/Eurostat geven vooral voor EU landen een aanmerkelijk groter export dan KCB. In het afgelopen seizoen was dat gat 470.000 ton groot, nl. 1.317.000 ton tegen 846.000 ton (823.000 ton Nederlands product en 23.000 ton re-export).
