

FACTSHEET PEARS & APPLES IMPORT RUSSIA EXPORT EU COUNTRIES

Fruit & Vegetable Facts; Jan Kees Boon; +31654687684; fruitvegfacts@gmail.com

BOYCOT RUSLAND: 460.000 ton minder appels en 165.000 ton minder peren

Blijvend minder import hardfruit in Rusland na instellen boycot

De Russische import van appels en peren is na het instellen van de boycot in 2014 flink gekrompen. In het seizoen 2013/14 importeerde Rusland nog 1,2 miljoen ton appels, in het afgelopen seizoen 2018/19 was dat nog 0,8 miljoen ton. Bij peren ging het om resp. 425.000 en 260.000 ton. Het wegvallen van de import van hardfruit uit o.a. België en Nederland is dus bij lange na niet gecompenseerd door import uit andere landen. Deels is er wel veel hardfruit uit o.a. België en Nederland via de Baltische staten en Wit Rusland op de Russische markt terecht gekomen. Dit is ook wel terug te zien in de officiële Litouwse en Wit Russische statistieken. In 2018 was het volgens de officiële statistieken wel minder dan de jaren daarvoor.

Uit officiële cijfers blijkt niet dat er meer hardfruit in Rusland zelf geteeld wordt maar het is wel de vraag in hoeverre deze cijfers betrouwbaar zijn.

Russia: Import pears and apples (in 1000 ton)

- Overige landen	430	730	300

Meer ZHR peren

Bij peren is er sinds de boycot wel meer uit Zuid Afrika en Chili (ander seizoen dan EU) en China ingevoerd. De import uit dit laatste land was in 2018/19 weliswaar groter dan in 2013/14 maar wel minder dan in de tussen liggende jaren. Ook vanuit Turkije werden er meer peren ingevoerd maar het gaat niet om heel grote hoeveelheden.

Nieuwe afzetmarkten peren: Voorlopig bescheiden hoeveelheden

De perenexport vanuit Nederland bestaat uit in Nederland geteeld product en re-export. De export van Nederlandse peren schommelde de afgelopen jaren tussen de 150' en de 200.000 ton. Incl. re-export is er in het afgelopen seizoen 2018/19 ca. 370.000 ton uitgevoerd. Dat was de voorgaande twee seizoenen ook zoveel.

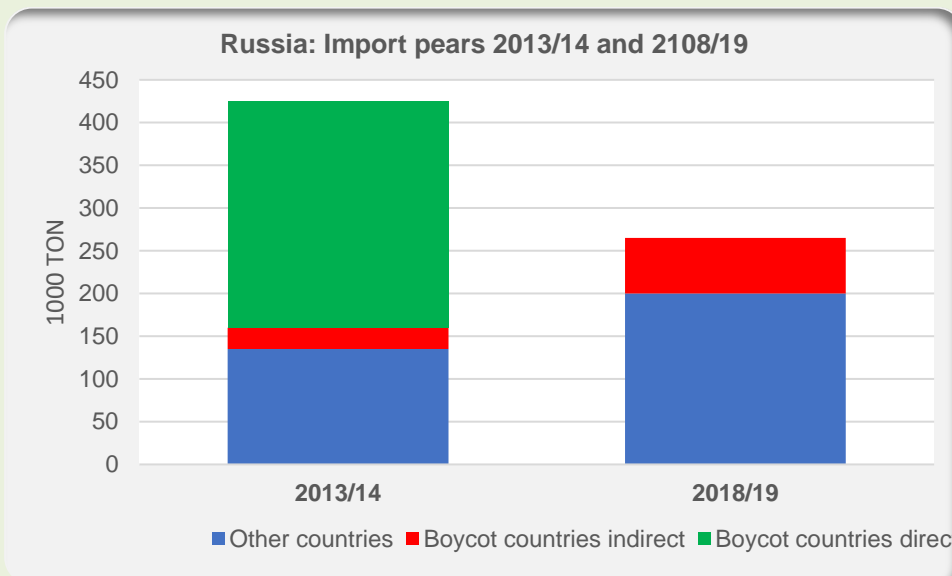

De export naar Rusland incl. de indirecte weg en incl. re-export had op z'n top een omvang van 60' tot 80.000 ton. Het afgelopen seizoen ging nog altijd om een hoeveelheid van 40.000 ton. De afzet van naar verder weg gelegen bestemmingen groeit wel snel maar het gaat nog altijd om bescheiden hoeveelheden. In het afgelopen seizoen is er incl. re-export een kleine 8.000 ton naar verre markten uitgevoerd. Het gaat hierbij om China, Hong Kong en India.

Belgische export peren niet gedaald na instellen boycot

De Russische markt was voor Belgische peren van nog veel groter belang dan voor Nederlands product. Op het hoogtepunt ging het om 140.000 ton. Naar schatting ging het het afgelopen seizoen 2018/19 nog altijd om een hoeveelheid van 70.000 ton.

Uit cijfers van Eurostat blijkt dat de totale Belgische perenexport de afgelopen seizoenen zeker niet kleiner geweest is dan de jaren voor de boycot. Het afgelopen seizoen 2018/19 was het iets minder dan direct er voor maar de 290.000 ton is zeker niet weinig. Dat de Belgische perenexport op peil blijft is (nog?) niet toe te schrijven aan export naar verder weg gelegen markten. De omvang van die handel is al een paar seizoenen 5 a 6.000 ton groot. Bij de traditionele afzetmarkten valt de groei van de export naar het Verenigd Koninkrijk en Frankrijk op. In het afgelopen seizoen ging het voor beide landen om een hoeveelheid van ruim 40.000 ton tegen voorheen minder dan 30.000 ton Nederland, Spanje en Duitsland zijn de andere belangrijke afnemers.

Nog steeds belande veel Poolse appels op Russische markt

Bij appels heeft vooral Polen een flinke veer moeten laten vanwege de Russische importboycot. In 2013/14 werd er in Rusland 570.000 ton ingevoerd in 2012/13 ging het zelfs om 765.000 ton Pools product. Italië, Frankrijk en België leverden ook redelijke hoeveelheden, Naar verhouding gingen er weinig Nederlandse appels naar Rusland.

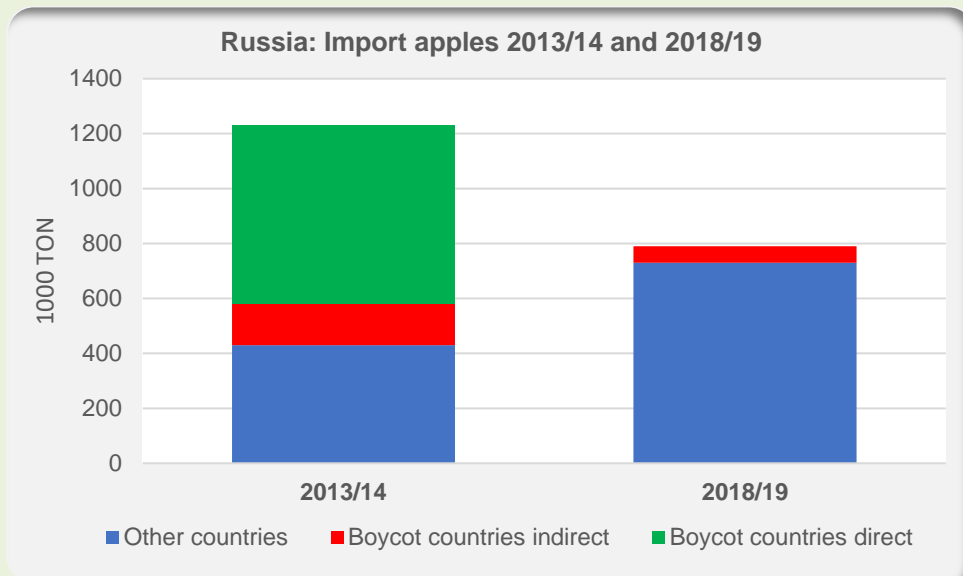

Ondanks de boycot zijn er de afgelopen seizoenen nog best veel Poolse appels op de Russische markt beland. Naar schatting ging in het 2018/19 om 300.000 ton. In het afgelopen seizoen zijn er

Export apples; The Netherlands (Dutch product only), Belgium and Poland (1000 ton)

1).Russia plus = Russia incl. Belarus and Lithuania

verder veel Poolse appels naar verder weg gelegen bestemmingen gegaan. Zo is er 120.000 ton naar Egypte geëxporteerd. Ook kon er redelijk wat geleverd worden aan Jordanië, India en de Golfstaten. Duitsland is goed voor 90.000 ton.

Export Nederlandse appels valt steeds verder terug

De export van in Nederland geteelde appels is van bescheiden omvang. In het kalenderjaar 2018 ging het volgens GFH/KCB om niet meer dan 44.000 ton. In 2010 was dat nog ruim 100.000 ton. Dat ligt maar zeer ten dele aan het wegvallen van de Russische markt. Op het hoogtepunt ging daar 14.000 ton naar toe. De afzet naar overige landen liep terug van 90.000 ton in 2010 naar 43.000 in het afgelopen jaar.

Eurostat registreert de Nederlandse export incl. weder uitvoer (en quasi doorvoer). In het seizoen 2018/19 ging het om 235.000 ton. Duitsland is veruit de belangrijkste afnemer. De afzet naar nieuwe verder weg gelegen markten is zeer bescheiden van omvang, nl. 3.300 ton. De Verenigde Arabische Emiraten en India zijn de belangrijkste.

De Belgische appel export viel in 2017/18 terug naar nog maar 120.000 ton. In het afgelopen seizoen was er sprake van een licht herstel naar 150.000 ton maar een export van (veel) meer dan 200.000 ton zoals voorheen zit er (voorlopig?) niet in.
