In 2023 geen groei meer van export Zuid Afrikaans fruit

2% minder

In 2023 is er een einde gekomen aan de groei van de Zuid Afrikaanse export van vers fruit. Dit jaar is er 4,16 miljoen ton uitgevoerd tegen 4,25 miljoen ton in 2022. Een daling van 2%. De jaren daarvoor was de Zuid Afrikaanse fruitexport flink gestegen. In 2016 werd grens van 3 miljoen ton bereikt en in 2021 werd er voor het eerst 4 miljoen ton uitgevoerd.

De cijfers zijn gebaseerd op de ontwikkeling in de eerste 10 maanden waarin gewoonlijk 95% van het jaartotaal wordt gerealiseerd.

Meeste naar Nederland maar in 2023 wel iets minder

Nederland is de belangrijkste afnemer van Zuid Afrikaans fruit. Dit jaar is de export naar Nederland een fractie kleiner geweest dan de recordhoeveelheid van 2022. Toen ging het om 945.000 ton en dit jaar om 936.000 ton.

Omdat de export naar EU landen als Italië en Spanje dit jaar wel groeide kon er voor de heel EU27 nog wel een klein plusje worden opgetekend. Ongeveer een derde van het Zuid Afrikaanse fruit gaat naar EU27 landen.

De grootste daling heeft zich voor gedaan bij de export naar landen in Zuid en Oost Azië. Daar kon 723.000 ton worden afgezet. Dat was 10% minder dan de 803.000 ton van 2022.

Wel kon er dit jaar een record hoeveelheid worden uitgevoerd naar landen in het Midden Oosten en Afrika.

Scherpe daling export naar het Verenigd Koninkrijk

Wat de afzonderlijke landen betreft is na Nederland het Verenigd Koninkrijk de tweede afnemer. De export naar dat land daalde dit jaar fors, en wel met bijna 10% naar iets meer dan 400.000 ton. Daar stond een forse groei van de export naar de Verenigde Arabische Emiraten tegenover. De export daar naar toe groeide dit jaar met maar liefst bijna 20% naar 381.000 ton tegen nog 323.000 ton in 2022. Rusland is de 4^{de} afnemer van Zuid Afrikaans fruit. De volgende afnemers op de lijst zijn: China, Canada, de Verenigde Staten, Portugal, Maleisië, Saoedi Arabië, Hong Kong, Bangladesh en Italië.

Een vijfde uit Zuid Afrika

Zuid Afrika is voor Nederland de belangrijkste leverancier van vers fruit excl. bananen. Dit jaar zal het aandeel van Zuid Afrika net als vorig jaar rond de 21% zijn. Daarvoor was het aandeel wat kleiner. Voor Zuid Afrika is Nederland zoals gezegd de belangrijkste afnemer met een redelijk constant aandeel van zo'n 23 %.

Voor het Verenigd Koninkrijk is Zuid Afrika na Spanje de 2^{de} leverancier van verse fruit excl. bananen. Het aandeel is de afgelopen jaren steeds zo'n 17% geweest.
